

Figure 1: Raw count rate curve of GRB 220320A recorded by the detector unit no. 1. The vertical dashed line marks the trigger time by Fermi/GBM.

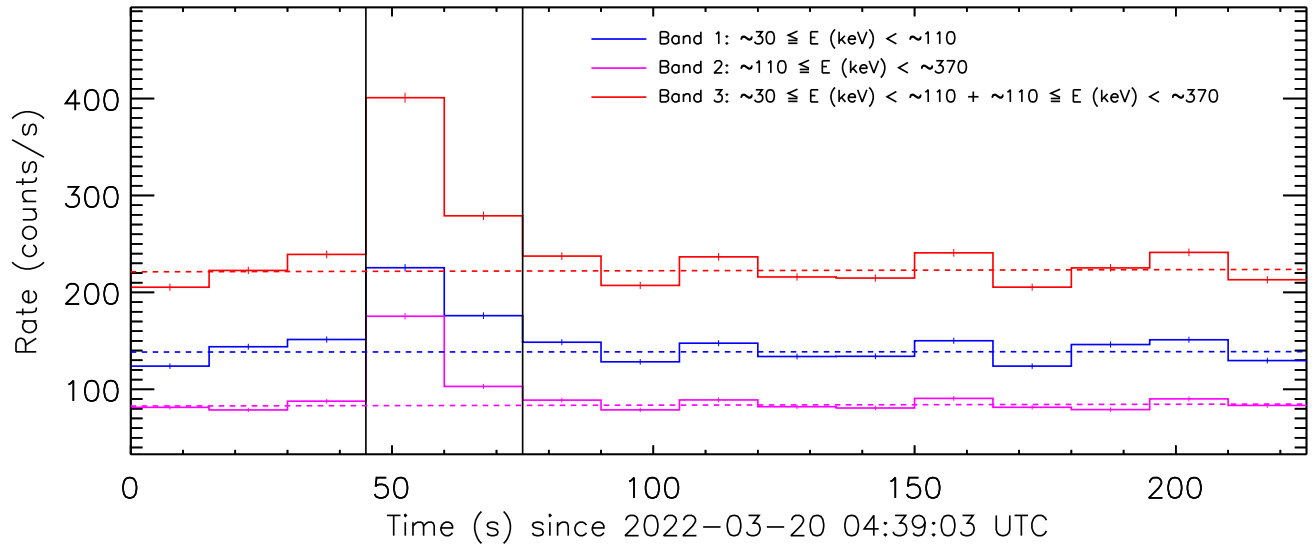

Figure 2: Background fit by a linear function. Pre-burst and post-burst intervals were used for the background fit which are delimited by the vertical solid lines.

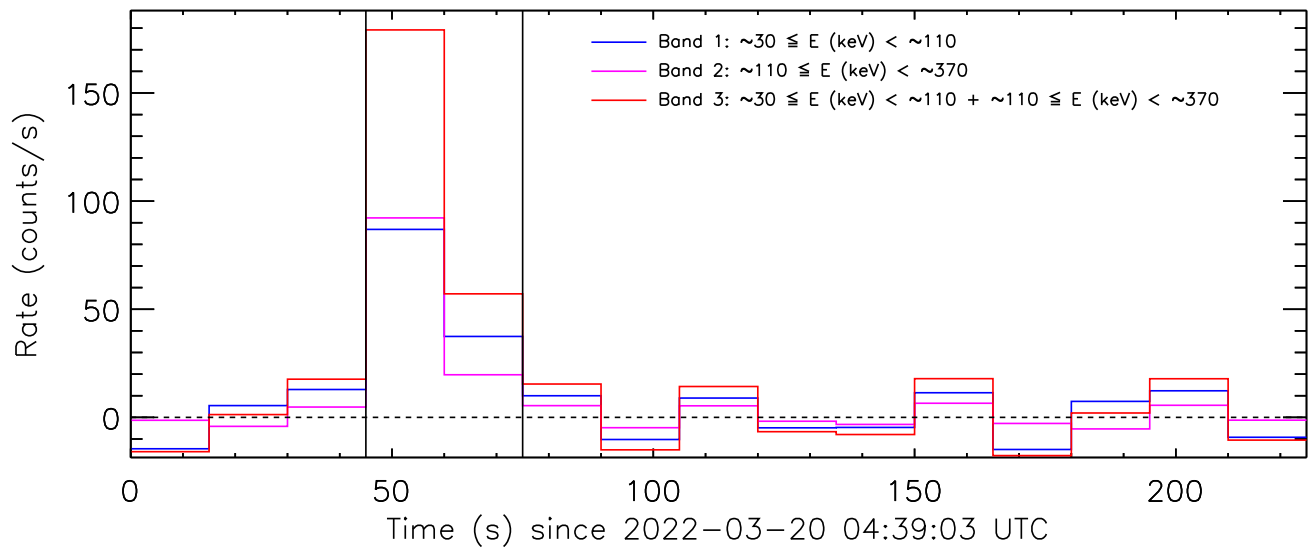

Figure 3: Background-subtracted count rate curves.

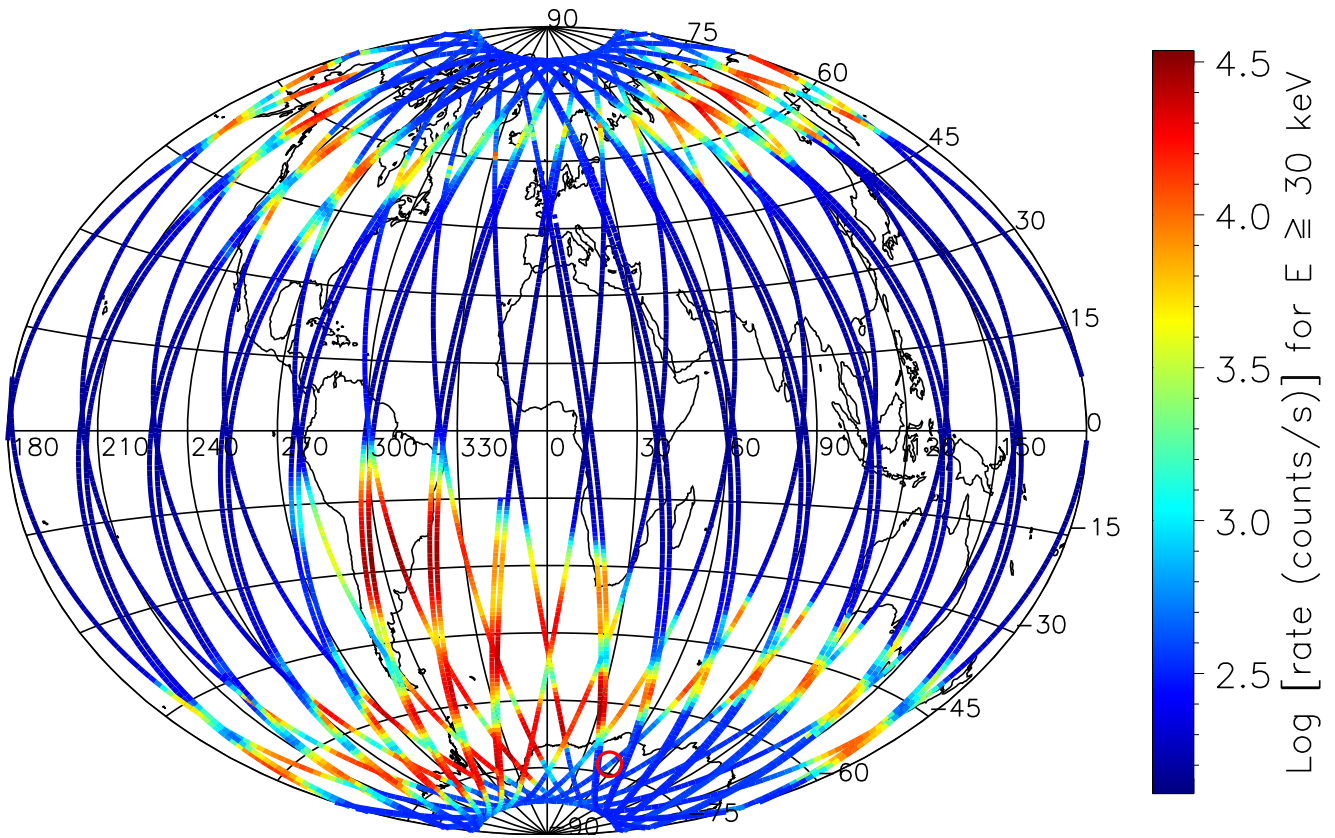

Figure 4: Count rate map recorded by the detector unit no. 1 with the position of VZLUSAT-2, marked by a red circle, at the time of the GRB 220320A detection.
