

Figure 1: Raw count rate curve of GRB 220608B recorded by the detector unit no. 1. The vertical dashed line marks the trigger time by Fermi/GBM.

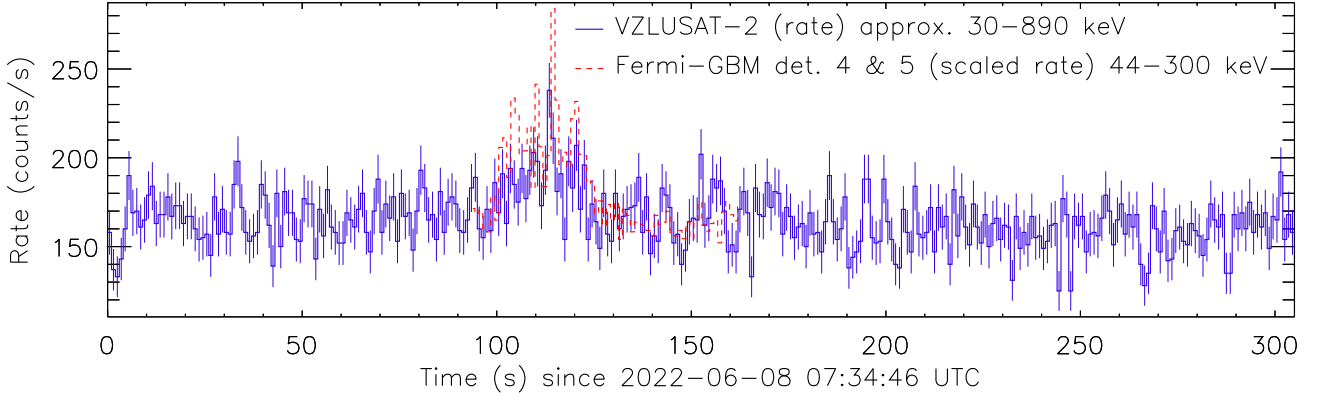

Figure 2: Raw count rate of the burst recorded by the detector unit no. 1 on VZLUSAT-2 overlotted with the count rate recorded by Fermi/GBM (trigger 676366592). The Fermi/GBM count rate was divided by a factor of 4.

Figure 3: Background fit to the data from the detector unit no. 1 by a linear function. Pre-burst and post-burst intervals were used for the background fit which are delimited by the vertical solid lines.

Figure 4: Background-subtracted count rate curves from the detector unit no. 1.
